### MAKING MOUNTAIN MEDICAL HISTORY MEMORABLE

Hamilton Mountain Heritage Society's Millennium 2000 book project entitled "Mountain Memories" caught the imagination of many groups. Suddenly the Mountain community discovered that it had a rich heritage. Thus a seed was planted with Hamilton Health Sciences who asked for our society's help to publish a centennial history of Chedoke Hospital.

Chedoke slowly evolved over its 100 year history. By making many changes it was able to stay in the forefront of the medical world, bringing international recognition to Hamilton and a vastly improved quality of life to our community. As editor of the book, Bob Williamson will talk about capturing those changes and presenting them in a memorable way.
